FOR IMMEDIATE RELEASE

## New Mobile Visitors Guide to the Glacial Drumlin Wisconsin State Trail

**Madison, Wisconsin (May 15, 2022)** – New free mobile interactive guide helps visitors easily find local resources and other amenities uniquely situated on **Wisconsin's Glacial Drumlin State Trail**.

**Manitou Media** is excited to announce the launch of its newest website, **GlacialDrumlinTrail.com**, an online visitors guide to the premier recreation trail in southeastern Wisconsin.

Spanning 52 miles of very gently rolling terrain, and connecting Cottage Grove near Madison with Waukesha near Milwaukee, the multipurpose rail trail is popular for hiking, biking, skiing, snowmobiling, and more.

This new site is the first and only full-featured visitors guide to this popular recreational trail. Interactive mobile maps help users find an array of immediate and nearby dining, lodging and camping, attractions & unique shopping, and more.

"This new visitors guide was long overdue," says Jeffrey Affeldt, outdoor-recreation enthusiast and site creator. "The Glacial Drumlin Trail is far and away Wisconsin's most popular recreation trail, but until now there was no comprehensive guide for it. With this new site, trail visitors can now find everything from the nearest restroom or trail pass kiosk, to a sandwich shop right around the corner, to a family-fun event just up the trail. [GlacialDrumlinTrail.com](http://GlacialDrumlinTrail.com) helps visitors find what they need, when they need it."

The **Glacial Drumlin State Trail Visitors Guide** invites visitors to explore the new website at [GlacialDrumlinTrail.com](http://GlacialDrumlinTrail.com).
